INDEX OF SUBJECTS AND AUTHORS

Abdominal conditions influencing the lungs and pleural pressure in pulmonary tuberculosis, 72

Acid-fast and non-acid-fast microörganisms in skin nodules of tuberculin-reacting cattle, 209

Adhesions in artificial pneumothorax, management of, The, 416

——, pleural, cauterization of, by closed intrapleural pneumolysis, The, 287

Adolescence, Pulmonary tuberculosis in infancy, childhood and, 458

Adults, Chinese, of the professional classes, Latent pulmonary tuberculous infections in, 193

——, tuberculous, tests on 944, with TPT (Seibert), Quantitative, 214

Air-embolism complicating artificial pneumothorax, 88

ALLEN, KENNETH D. A., AND SEWALL, HENRY. The relations of allergy and immunity in a clinical case of pulmonary tuberculosis, 607

ALLEN, RAYMOND B., AND MONTGOMERY, LALL G. Tuberculous bacilluria, 92

Allergy and immunity, clinical study of, A, 320

—— —— —— in a clinical case of pulmonary tuberculosis, relations of, The, 607

——, nontuberculous, in tuberculosis, clinical aspects of, Some, 561

Alternate artificial pneumothorax, 277

Aluminum oxide and borosilicate-glass, intratracheal introduction of, Pulmonary lesions experimentally produced by, 548

Ambulatory artificial pneumothorax in the treatment of tuberculosis in the Negro, 80

ANGLIN, G. C., AND CAULFEILD, A. H. W. The futurity handicap of the tuberculosis contact, 619

Apparatus and technique for artificial-pneumothorax refills, An efficient, 281

APPEL, JOHN M., DOUGLAS, BRUCE H., ROSENBUSCH, TEKLA, AND WILLIS, HENRY STUART. A note on comparative testing with Seibert's tuberculin-protein (T.P.T.), 478

ARONSON, JOSEPH D. The Purified Protein Derivative, 727

——, —— ——., SEIBERT, FLORENCE B., AND LONG, ESMOND R. Tuberculin surveys with Purified Protein Derivative, 733

Artificial pneumothorax, adhesions in, management of, The, 416

—— ——, Air-embolism complicating, 88

—— ——, Alternate, 277

—— ——, Ambulatory, in the treatment of tuberculosis in the Negro, 80

—— —— in the 'teens, 653

—— —— —— —— tuberculous diabetic, 181

—— ——, physiopathological aspects of, Some, 535

—— —— refills, efficient apparatus and technique for, An, 281

—— —— technique, 670

—— —— treatment and lung expansion, Leucocyte counts during, 256

Aspergillosis, Pulmonary, in association with bronchial carcinoma, 315

Atelectasis and the disappearance of cavities, 299

—— in pulmonary tuberculosis, rôle of, The, 60

AUSTIN, HAROLD, AND DAINES, LYMAN L. Acid-fast and non-acid-fast microörganisms in skin nodules of tuberculin-reacting cattle, 209

Autopsies, 1,400, Intestinal tuberculosis in, 568

Bacillaemia, tubercle, by Loewenstein's method, frequency of, The, 103

Bacilli, tubercle, new medium for the rapid cultivation of, A, 510

Bacilli, tubercle, viability of, in tissues and sputum preserved in vitro, The, 344
Bacilluria, Tuberculous, 92
Bacillus, tubercle, cultivation of the, from the blood-stream, by Loewenstein's method, The, 695
BANYAI, ANDREW L. Carbon-dioxide inhalation in pulmonary tuberculosis, 642
BARKER, LEWELLYS F. The relations of the make-up of the body to the disposition to tuberculous infections and their course, 519
BARNWELL, JOHN B., AND POLLARD, H. M. A comparison of Old Tuberculin with tuberculin protein T.P.T., 482
BEAUDET, E. A., AND FALES, LOUIS H. The healing of tuberculous cavities, 225
Bilateral spontaneous pneumothorax, Simultaneous, 239
BIRD, ORSON D., CLARK, LAWRENCE T., AND EMMETT, ARTHUR D. The preparation of Seibert's tuberculin-protein (*T.P.T*) for diagnostic purposes, 471
BLACK, H. A., AND KAMPMEIER, R. H. Pulmonary aspergillosis in association with bronchial carcinoma, 315
Blood glutathione in tuberculosis, 505
Blood-stream, cultivation of the tubercle bacillus from the, by Loewenstein's method, The, 695
BLOOM, BENSON. See *Books*, 114
Body, relations of the make-up of the, to the disposition to tuberculous infections and their course, The, 519
BOGEN, EMIL, AND LOOMIS, RUSSELL N. Blood glutathione in tuberculosis, 505
——, ——, TIETZ, ESTHER BOGEN, AND GRACE, MAJOR FRANK. Tuberculosis and mental disease, 351
BOOKS:
WHITNEY, JESSAMINE S. Tuberculosis hospitalization in the United States, 114
ARMAND-DELILLE, P.-F., AND LESTOCQUOY, C. La tuberculose pulmonaire et les maladies de l'appariel respiratoire de l'enfant et de l'adolescent, 117
ULRICI, H. Diagnostik und Therapie der Lungen- und Kehlkopf-Tuberkulose, 119
MCCOLLUM, E. V., AND BECKER, J. ERNESTINE. Food, nutrition and health, 120
SCHÖNFELD, W., AND MENZEL, K. Tuberkulose, Charakter und Handschrift, etc., 120
Borosilicate-glass, intratracheal introduction of aluminum oxide and, Pulmonary lesions experimentally produced by, 548
BROCK, BENJAMIN L., AND FISHER, LINCOLN. Surgery in the tuberculosis sanatorium, 187
——, —— ——., —— MULLEN, ALVIN B. Artificial pneumothorax in the 'teens, 653
Bronchi, Occlusion of the trachea and, by a tuberculous process complicating pulmonary tuberculosis, 307
Bronchial carcinoma, Pulmonary aspergillosis in association with, 315
—— stenosis in pulmonary tuberculosis, 123
Bronchiectatic septic tank, The, 599
BURHOE, BEULAH. The importance of social diagnosis in the treatment of the tuberculous, 514

Carbon-dioxide inhalation in pulmonary tuberculosis, 642
Carcinoma, bronchial, Pulmonary aspergillosis in association with, 315
Cattle, tuberculin-reacting, skin nodules of, Acid-fast and non-acid-fast microörganisms in, 209
——, tuberculosis in, diagnosis of, precipitin test as a means of, The, 584
CAULFEILD, A. H. W., AND ANGLIN, G. C. The futurity handicap of the tuberculosis contact, 619
Cauterization, partial, of pleural adhesions by closed intrapleural pneumolysis, The, 287
Cavities, disappearance of, Atelectasis and the, 299
——, tuberculous, healing of, The, 225
CHANG, C. P., AND HALL, G. A. M. Latent pulmonary tuberculous infections in Chinese adults of the professional classes, 193
Childhood and adolescence, Pulmonary tuberculosis in infancy, 458

Children in New York City, tuberculous infection among, incidence of, The, 1
——, tuberculous, effect of moderately large dosage of viosterol, The, 358
Chinese adults of the professional classes, Latent pulmonary tuberculous infections in, 193
CIPPES, I. B., CUTLER, J. W., AND RODGERS, W. H. Ambulant artificial pneumothorax in the treatment of tuberculosis in the Negro, 80
CLARK, L. T., AND REICHEL, JOHN. The manufacture of the Purified Protein Derivative of tuberculin, 721
CLARK, LAWRENCE T., EMMETT, ARTHUR D., AND BIRD, ORSON D. The preparation of Seibert's tuberculin-protein (*T.P.T.*) for diagnostic purposes, 471
Classification of tuberculosis, Lymanhurst, The, 588
Clinical aspects of nontuberculous allergy in tuberculosis, Some, 561
—— study of allergy and immunity, A, 320
Closed intrapleural pneumolysis, partial cauterization of pleural adhesions by, The, 287
Comparative testing with Seibert's tuberculin-protein (*T.P.T.*), A note on, 478
Comparison of Old Tuberculin with tuberculin protein T.P.T., A, 482
Complicating artificial pneumothorax, Air-embolism, 88
—— pulmonary tuberculosis, tuberculous process, Occlusion of the trachea and bronchi by a, 307
Contact, tuberculosis, futurity handicap of, The, 619
Cough, Rib-fracture by, 566
CRAWFORD, PAUL M., AND SAWYER, HAROLD P. Intestinal tuberculosis in 1,400 autopsies, 568
Cultivation of the tubercle bacillus from the blood-stream by Loewenstein's method, The, 695
—— —— tubercle bacilli, rapid, new medium for the, A, 510
CUTLER, J. W. The management of adhesions in artificial pneumothorax, 416
——, —— ——., RODGERS, W. H., AND CIPPES, I. B. Ambulant artificial pneumothorax in the treatment of tuberculosis in the Negro, 80

DAINES, LYMAN L., AND AUSTIN, HAROLD. Acid-fast and non-acid-fast microörganisms in skin nodules of tuberculin-reacting cattle, 209
DANFORD, V. H., AND KARAN, A. A. A clinical study of allergy and immunity, 320
DEEGAN, JOHN KENNETH. Leucocyte counts during artificial-pneumothorax treatment and lung expansion, 256
Derivative, Protein, Purified, as a standard tuberculin, The, 757
——, ——, ——, of tuberculin, manufacture of, The, 721
——, ——, ——, —— ——, purification and properties of, The, 713
——, ——, ——, The, 727
——, ——, ——, Tuberculin surveys with, 733
Diabetic, tuberculous, Artificial pneumothorax in the, 181
Diagnosis of tuberculosis in cattle, precipitin test as a means of, The, 584
——, social, in the treatment of the tuberculous, importance of, The, 514
Dietary treatment for tuberculosis, A, 365
Disappearance of cavities, Atelectasis and the, 299
Disposition to tuberculous infections and their course, The relations of the make up of the body to the, 519
Dogs, pathogenicity of *Mycobacterium tuberculosis* (*avium*) for, by intracerebral injection, The, 683
DOUGLAS, BRUCE H., ROSENBUSCH, TECKLA, WILLIS, HENRY STUART, AND APPEL, JOHN M. A note on comparative testing with Seibert's tuberculin-protein (*T.P.T.*), 478
DROLET, GODIAS J. The incidence of tuberculous infection among children in New York City, 1

Effect of moderately large dosage of viosterol on tuberculous children, The, 358
EGBERT, ORVILLE E., AND SHERMAN, JAMES E. Some clinical aspects of nontuberculous allergy in tuberculosis, 561

EHRENBURG, G. E. Some physiopathological aspects of artificial pneumothorax, 535
ELOESSER, LEO. Bronchial stenosis in pulmonary tuberculosis, 123
Embolism, Air, complicating artificial pneumothorax, 88
EMMETT, ARTHUR D., BIRD, ORSON D., AND CLARK, LAWRENCE T. The preparation of Seibert's tuberculin-protein (*T.P.T.*) for diagnostic purposes, 471
Expansion, lung, Leucocyte counts during artificial-pneumothorax treatment and, 256
Extrapulmonary and pulmonary tuberculosis, relations between, The, 375

FALES, LOUIS H., AND BEAUDET, E. A. The healing of tuberculous cavities, 225
FELLOWS, HAYNES HAROLD. A study of incidence of pulmonary tuberculosis, 109
FENGER, E. P. K., MARIETTE, E. S., HUTCHINSON, DOROTHY W., AND OUELETTE, A. J. Further experiences with MA-100 proteins, 329
FISHER, LINCOLN, AND BROCK, BENJAMIN L. Surgery in the tuberculosis sanatorium, 187
FORSEE, JAMES HEDGES. The partial cauterization of pleural adhesions by closed intrapleural pneumolysis, 287
Fracture, Rib-, by cough, 566
Frequency of tubercle bacillaemia by Loewenstein's method, The, 103
Further experiences with Ma-100 proteins, 329
Futurity handicap of the tuberculosis contact, The, 619

GASUL, B. M., AND PONCHER, H. G. The effect of moderately large dosage of viosterol on tuberculous children, 358
General practitioner, Problems of the, in tuberculosis, 593
Glass, borosilicate-, intratracheal introduction of aluminum oxide and, Pulmonary lesions experimentally produced by, 548
Glutathione, Blood, in tuberculosis, 505
GORDON, BURGESS. Abdominal conditions influencing the lungs and pleural pressure in, 72
GRACE, MAJOR FRANK, BOGEN, EMIL, AND TIETZ, ESTHER BOGEN. Tuberculosis and mental disease, 351
